Unfortunately I don't think we can make Wednesday work. And with Edmondson running for governor, I'm not sure it's a good idea for him to go on if he's hosting.

We usually tape at 2pm. We will take Scott for as long or little as he can make it.

Hey Kevin! Just checking in. What is your normal flashpoint taping time? Still interested in Pruitt for this week?

I'll get you information on the visit as soon as it's confirmed

Good morning Kevin –

Hope you're doing  
well! There is a  
possibility  
Administrator Pruitt  
will be traveling back  
to Oklahoma next  
week for a few days  
and I wanted to reach  
out to see if  
Flashpoint would be  
available. I know you  
usually tape on  
Fridays, but we would  
likely have to do  
Thursday.

Nothing is set in stone  
yet for next week, but  
I at least wanted to  
check on what was  
available.

Hope to talk soon,  
Lincoln

## EPA Announces Intent to Revisit Provisions of Phase 2 Heavy-Duty Rules

**WASHINGTON (August 17, 2017)** –The U.S. Environmental Protection Agency (EPA) announced today its intent to revisit provisions of the Phase 2 Greenhouse Gas Emissions and Fuel Efficiency Standards for Medium- and Heavy-Duty Engines following concerns raised by stakeholders in the trailer and glider industry.

“In light of the significant issues raised, the agency has decided to revisit the Phase 2 trailer and glider provisions,” **said EPA Administrator Scott Pruitt**. “We intend to initiate a rulemaking process that incorporates the latest technical data and is wholly consistent with our authority under the Clean Air Act.”

## Background:

In September 2011, EPA and the National Highway Traffic Safety Administration (NHTSA) issued greenhouse gas (GHG) emissions and fuel efficiency standards for medium- and heavy-duty vehicles for model year 2014-2018 ("Phase 1"). These standards applied to newly manufactured engines, tractors, vocational vehicles, large pickups, and vans. In October 2016, EPA and NHTSA updated the standards for medium- and heavy-duty vehicles MY 2021-2027 ("Phase 2"), and regulated trailers and gliders - for the first time under the GHG program - with compliance deadlines beginning in 2018.
